US Government work

Note to US Government Employees:

A Contribution prepared by a US federal government employee as part of the employee's official duties, or which is an official US Government publication is called a "US Government work", and is in the public domain in the United States. In such case, the employee may cross out paragraph A1 but must sign and return this Agreement. If the Contribution was not prepared as part of the employee's duties or is not an official US Government publication, it is not a US Government Work.
